19" HMI Panel PC for Cleanroom – in wall

Highlights

HMI PC for in-wall mounting in cleanroom. Save valuable space and service cost without breaking the cleanroom sealing.

Very easy to clean and disinfect due to the flat, smooth stainless steel front. Withstands almost all cleaning agents and disinfectants.

The multi touch display works with gloves improving workflow and productivity. A typical use case would be three layers of gloves, one layer of cotton gloves and two layers of nitrile/latex or silicone gloves. It is also possible to combine with thicker safety gloves. The multi touch display provides auto calibration for seamless operation.

Blue Line's HMIs are designed for 24/7 operation, with a low power consumption, passive cooling and without moving parts for maximum operational reliability.

Available as monitor or with integrated PC. Mounting is possible in walls, machines and control cabinets. Blue Line's modular design makes it possible to configure fully to specific requirements to functionality, finish and environment.

Wall mounted keyboard is optional.
